There are many days that we wish you were still here with us. Our hearts melt to have you taken from us all, but then we are reminded that you are at peace, much happier and enjoying your time with the great one above.

Mom, we were graciously blessed with your presence. Thank you for your smiles, laughter, kindness, generosity, willingness, warmth, and love. Thank you for teaching us so much through your actions. We’ve become who we are through you.

All our love:
