

Denesoline Corporation

AEROPONIC OPERATIONS MANAGER

Denesoline Corporation is currently seeking a qualified Aeroponic Operations Manager to assist with a new project. This is a full-time, permanent position based in Yellowknife, NT.

Duties include – but are not limited to – overseeing the daily operations of the aeroponic farm; recording observations for scientific data, such as growth rate, nutrient uptake, temperature/humidity and water temperature/pH/PPM, to establish optimum environmental conditions for growth; organizing tours of the indoor aeroponic farm; conducting market research and meeting with investors, funders and environmental agencies regarding farm operations.

The successful candidate will have a university degree in horticulture or a related science. Must have excellent English communication (reading, writing, speaking) skills, as well as good customer service skills. Attention to detail a must. The position pays \$25.00 per hour, based on a 37½ hour work week. Benefits include two weeks' vacation per year, and extended health and dental benefits.

Qualified applicants are invited to submit their resumé to:

denesoline.posting@gmail.com

Only those candidates selected for an interview will be contacted.
